## Summary

A clinically trained dentist and emerging public health professional with a Master of Public Health (MPH) from Western Sydney University. Proven ability to bridge health systems knowledge with regulatory engagement, health promotion, and culturally responsive communication. Experienced in program evaluation, stakeholder engagement, and research translation. Brings a unique combination of clinical credibility, analytical rigour, and public sector insight.

## Experiences

### Internship

[SafeWork NSW | Healthcare and Social Assistance | March 2025](#)

- Assisted in drafting policy and regulatory initiatives focused on hospital violence prevention.
- Conducted workplace health risk assessments in aged care, disability, and healthcare facilities.
- Contributed to a sector-wide evaluation plan and stakeholder engagement presentation.
- Advocated for evidence-based and inclusive messaging in campaign content

### Digital Marketing

[Humans of Purpose – Sydney, NSW | Currently Working](#)

- Created inclusive content and communication strategies for community-driven campaigns.
- Strengthened stakeholder engagement skills transferable to health promotion and public health advocacy.

### Dentist & Educator

[Islam Dental Hospital – Pakistan | 12/2019 – 06/2021](#)

- Delivered oral health promotion sessions in underserved communities.
- Provided patient care across socioeconomically and linguistically diverse populations.
- Supervised final-year dental students and modelled ethical, culturally safe practice.
